**Subject:** PFOS Deposition Modeling

Hi James,

Cath Beahm from New Hampshire gave me your name. I was wondering if we could talk about the air deposition modeling you are doing for them on PFOS. I am working on the Wolverine site in Michigan and we wondering if there is a way to model the air emissions from the facility. We have an information request into the company and expect some of the information needed to do that type of work to come in over the next few weeks.

I'm only available today until about noon your time, but I'll be back in the office again tomorrow.

Thanks,  
Erin
